RESPONSE TO DECISION ON PETITION UNDER 37 CFR 1.137 (A)

Dear Sir:

PETITION UNDER 37 CFR 1.181

This is in response to the Decision on Petition dated November 18, 2008, Applicants' petition under 37 CFR 1.181 to Withdraw Holding of Abandonment Based on Failure to Receive Office Action for application number 10/551,727.

Description of the Docketing System:

The procedure for incoming mail from the USPTO and computer docketing of events (e.g., dates and type of response required,) is as follows for mail directed to Dow's PO box for USPTO correspondence:

1. Received by Dow and delivered to the IP File Room.
2. File Room Mail Clerk opens/date stamps document.

Application No. 10/551,727
Response dated December 18, 2008
Reply to Office Action of November 18, 2008

2

Docket No. 62620A US

3. Document is delivered to Docketing.
4. Document is docketed, initialed and dated by Docketing Paralegal.
5. If urgent, a copy of the document is e-mailed to attorney/support staff.
6. Document is returned to File Room.
7. File Room Clerk scans and uploads document into Dow's document management system which is viewable within the Intellectual Property Management System (Electronic Docketing System).
8. Document is sent/delivered to the attorney's support staff.

With regard to the particular Office Action not received, on September 23, 2008, we (The Dow Chemical Company "Dow", assignee of record) received a Notice of Abandonment for patent application number 10/551,727 (Attorney Docket No. 62620A) for failure to respond to a Notification of Missing Requirements that the U.S. patent office mailed on January 22, 2008 as per a copy subsequently obtained by Dow after receiving the Notice of Abandonment (mailed September 15, 2008). The due date for the response was March 22, 2008.

Establishment of Non-receipt of the Office Action:

The first time we had notice of the Notification of Missing Requirements was upon receipt of the Notice of Abandonment. After receiving the Notice of Abandonment, the application file was searched and a further investigation was carried out to find any evidence of the receipt of the Notification of Missing Requirements (search of pertinent mail areas and discussions with responsible employees) by Dow's Leader of IP Business Services (Laura Reinhold). In the search and investigation, the Notice of Missing Requirement was not found and no record of receipt of it was found. A copy of the Notice of Missing Requirements was first received on October 08, 2008 after being requested by Dow.

Dow employs an electronic docketing system with all docketing information being accessed by each individual agent or attorney. Dockets are run on a periodic basis for each attorney (approximately monthly). The individual electronic docket record for attorney docket number 62620A (Application No. 10/551,727) is attached. This docket record shows no record

Application No. 10/551,727
Response dated December 18, 2008

Docket No.: 62620A US

of receipt of the Notice of Missing Requirements until after receipt of a copy of it from the U.S. Patent Office on October 8, 2008. This copy was then input into the docketing system as shown in the attached sheet (input date of October 9, 2008 and due date March 22, 2008). Also attached are two copies of my working dockets for the time in which the Notice of Missing Requirements would have been docketed, with notes by my Office Professional (Carol Axtell) on the progress of work etc. These dockets were run on February 2, 2008 and March 17, 2008. As shown by the electronic docket of the individual record and my dockets, there is no record of the Notice of Missing Requirements (docket number 62620A) until a copy was received on October 8, 2008.

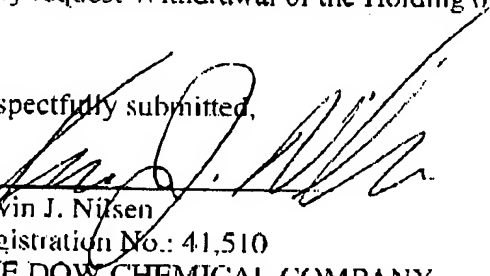

This is the first instance (over ten years employed as a patent agent/attorney at Dow), relying upon The Dow Chemical Company's mail and docketing system, that I have not received an Office Action resulting in a Notice of Abandonment. From the above, I state, I did not receive the Notice of Missing Requirements at the correspondence of record and that a search of my records indicates that the Notice of Missing Requirements was not received.

We are also including a complete declaration for each inventor. In one instance one set of the declaration was signed by two inventors. All other sets were signed individually, therefore instead of having 14 pages (2 pages for each of the seven inventors) we have 12 pages.

From the above, Applicants' respectfully request Withdrawal of the Holding of Abandonment.

Dated: December 18, 2008

Respectfully submitted,

By
